PG 530 Grinder/Polisher *Planetary*

21"

The Husqvarna PG 530 is a planetary grinder/polisher with unmatched capacity, excellent for residential and light commercial purposes. The PG 530 combines the latest technology to deliver more power and performance than any other triple head planetary machine available in its class.

**PG530
Grinder/
Polisher**
5HP - 240V
16 Amps
HV5530
**Use 25kW
Generator
35kW with
vacuum**

- Variable Speed 200-710 RPM
- FWD/REV with disc and planetary head rotation in same direction
- 295 lbs. grinding pressure
- 18 grinding segment capacity
- 1-Phase power supply
- Offers a flatter, more consistent grinding surface than that offered by 4-head machines

PG 820 Grinder/Polisher *Planetary*

32"

PG820 Grinder/ Polisher

17 HP - 240V
43 Amps
HV5820

**Use 45kW
Generator
55kW with
vacuum**

With 32 in. wide grinding width PG 820 is our most productive concrete floor grinder and polisher suitable for industrial applications. With planetary drive system and Dual Drive Technology™, PG 820 is one of the market's most powerful and efficient machines. Excellent choice for concrete floor preparation and repair as well as all polishing and grinding applications, **both wet and dry**. The patented twin motor drive system gives you **maximum power**.

- Variable Speed 250-1100 RPM
- Independent FWD/REV direction controls on both grinding disc and planetary head
- 660 lbs. grinding pressure
- 18 grinding segment capacity
- Dual Drive Technology™ enables the operator to control the speed and direction of both the planetary head and grinding discs.
- 3-Phase power supply

Husqvarna Dual Drive Technology™ is a patented design in which the two separate motors for the planetary head and grinding discs are operated independently of each other. This unique feature allows for an almost unlimited combination of settings and full operator control.

Dual Drive Technology™ allows the planetary head and grinding discs to be set in both counter-rotation and in the same direction rotation. Same direction rotation enables a more efficient process with extremely high production rates and a flatter finish.

PG 680 Grinder/Polisher *Planetary*

27"

PG680 Grinder/ Polisher

17HP - 240V
43 Amps

HV5680
**Use 45kW
Generator
55kW with
vacuum**

The PG 680 grinder/polisher is an excellent choice for both industrial and commercial applications. The planetary drive system and **Dual Drive Technology™** gives PG 680 an outstanding removal rate. **Excellent choice for concrete floor preparation and repair as well as all polishing and grinding applications – both wet and dry.** The patented twin motor drive system gives you maximum power. Ideal for polishing stone and terrazzo.

- Variable Speed 250-1200 RPM
- Independent FWD/REV direction controls on both grinding disc and planetary head
- 660 lbs. grinding pressure
- 18 grinding segment capacity
- Dual Drive Technology™ enables the operator to control the speed and direction of both the planetary head and grinding discs.
- 3-Phase power supply

DC 6000 Dust Management

DC 6000 is an effective industrial dust collector, developed with unique double shell cyclone technology and automatic filter cleaning.

The cyclone technology enables constant high air flow, high productivity and powerful suction, leaving less dust on the floor. Can be used for both wet and dry applications.

HV56000

**Use 45kW Generator
55kW with grinder**

- 10HP • 380-480 V • 16 Amps
- 3-Phase power supply • 406 CFM
- For job sites with strict environmental regulations.
- Auto-dumping feature - material is removed automatically every 3 minutes
- HEPA 13 rated filter
- Uses individually sealed Longopac® bags
