Polishing

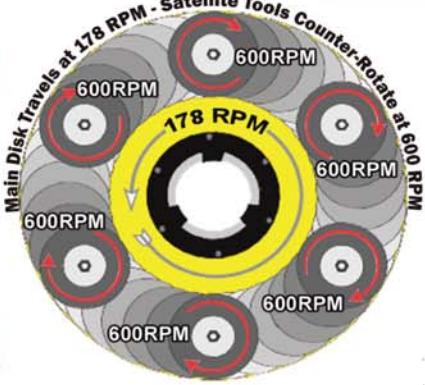

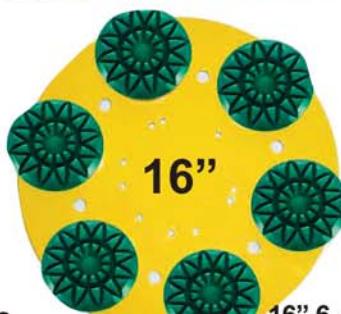

Polishing Concrete w/Planetary Head

**High Speed Planetary Saves Time and Money
While Improving Finished Quality**

- Counter Rotating Heads Create a Flat Polished Floor
- No Chatter or Choppy Movement to Gouge and Scratch the Floor
- Multihead Dual Direction Planetary Action Discs offer Floor Cleaning, Stripping and Grinding, Scarifying, Sanding & Superior Polishing
- High Speed Heads sling the grit and stone from under the Diamond extending the tool life
- Rotating Head design allows them to spin 360° which wears the diamonds equally and aids water lubrication, resulting in an evenly polished floor and less Diamond cost
- Reduce labor 50% and increase diamond life 35-40% over competitors
- High Speed Disc completes the job in 1/4 of the time while increasing the Gloss level
- Satellite Planetary Head offers a Perfect Platform for Grinding for Preparation, Leveling, Scraping, and Coating Removal Prior to Polish (Floor Prep pg. 19)

SATELLITE

How It Works

- Multihead Dual Direction Orbital Action Discs offer Superior Cleaning, Stripping and Grinding, Scarifying, Sanding & Polishing
- Adjustable riser for the Lowest Machine Height & Center of Gravity giving the BEST STABILITY & OPERATOR HANDLING
- Rotating 4" Heads turn 600 RPM on a Standard 178 RPM Floor Machine (1200 RPM on a 300 RPM Machine)
- 4 Times Faster than Conventional Tools
- Save Time & Money by Eliminating Outside Contractors
- 100's of Job Specific Tools pg. 16-18
- Water Feed Outlets for Wet Use
