DIAMOND TOOLS

Redi-Lock diamond tools are perfect for concrete grinding applications, such as aggregate exposure, preparation for tiling floors, removal of epoxy coatings and sealers as well as flattening.

The system eliminates the need for multiple sets of diamond disc holders, and replaces time consuming screw-on-diamond systems. The Redi Lock dovetail simply locks into the slot and is ready for use.

Bush Hammer Roller

Repeated hit of these carbide tips into stone or concrete surface creates a rough, pockmarked texture that looks like naturally weathered.

- Removes old glue and resin coatings, thin and thick resins.
- Removes 1/4" of concrete in one pass
- Floor prep before laying new coatings.
- Exposes the aggregate in concrete floors.
- Prepares for concrete polishing.
- Creates slip-resistant finish on granite and marble.
- Breaks down coatings standard diamonds can't touch.
- Prepares surface for application of thin-set overlay.
- Use under 700 rpm.

Use Only With PG 820
