Sold in 3 packs

Ceramic Transitional Disc Wet/Dry

- 3", 7mm Thick Ceramic Bond Diamonds will quickly remove scratches left by metal-bond diamonds
- Seamless transition from Ceramic to Resin
- Hook & Loop attachment for easy and fast grit changes
- Will not build up heat during the cutting process
- Does not leave a scratch pattern, giving the operator the option of using a higher grit Resin diamond to continue.
- Beveled Edge allows for smooth grinding
- **Grits 30, 50, 100, 200**

Pro Con Wet/Dry

**3" Wet****KA1850-Grit****3" Dry****KA1870-Grit**

- Best shine and deepest gloss
- Beveled edge rides over lippage
- Best sq.ft. to cost ratios
- 12mm (about 0.5") thick to last 50% longer than competition
- Best when used after ProCon Semi-Metal
- Attaches to any planetary
- **Grits 50, 100/120, 220, 400, 800, 1500/1800*, & 3000/3500***

* Grit numbers vary from country to country; our combination grits offer the best fit and quality.

Pro Con Semi-Metal Wet/Dry 3" Transition Diamond

**Save Time & Money**

Semi-Metal is a Metal/Resin hybrid that provides a seamless transition from aggressive metal bonds to resin polishing diamonds without repeating grits.

- Works as a lippage tool/first cut
- scratch removal
- This robust pad is ideal for all weight machines
- Hybrid mix between metal and resin diamonds is designed for fast work without deep scratches
- **Grits 30, 50, & 100/120**
- Hook & Loop attachment for easy and fast grit changes
- Excellent first step with fast cut and minor scratches
- Cuts like metal but with less scratches
